Trust Estates Should Be Carefully Managed

If a widow of a testator is made executrix, the cases are rare where she has had a business training or experience requisite safely to settle the estate and she must always necessarily depend on some friend or agent to take the responsibility; she does not wish the position-the work is that the banks would restrict business as hard and distasteful to her, and the agent | much as possible on July 5 and 6 on acbecomes, in fact, the executor. CAUSED BY WORDING OF THE DIVI-DEND DECLARATION.

Very Dull Day Brought to an End a Very Dull Half Week-Condition of the Money Market.

NEW YORK, July 3. - To-day's stock market was little more than nominal. The | National Lead fournment of the exchange until Monday greeted with cheers all through the Wallstreet district, and there was an immediate hegira of members of the board. Only those who were compelled to stay to close up contracts remained in the board session to-day a communication was read from a number of principal banks saying count of the heat, and that as many emon those days. Members of the Cotton Exchange said that the exchange will be unable to close on Friday and Saturday. Friday is regular notice day for the delivery of July cotton on option contracts. The uncertain condition of the crop is urged by the officers of the exchange as a reason why it would be unwise to suspend busi-

The leader in such market as there was was United States Steel. That stock reflected clearly enough the disappointment of holders over the dividend, or, rather, over the wording of the dividend declaration. The omission of the word "quarterly" in connection with the 1 per cent.; time loans, 5@6 per cent. Clearings, \$1,cent, dividend on common stock was alleged to throw doubt on the continuity of the dividend rate thus established. The argument of the friends of the stock that room was thus left to increase the rate, as well as to decrease it, did not assure the speculators, and they sold the stock freely.

NEW YORK.—Call money firm at 6@28 per cent.; last loan, 15 per cent.; ruling rate, 10 per cent.; prime mercantile paper, 4@5½ per cent.; sterling exchange easier; actual business in bankers' bills, \$4.87½@4.87% for demand, \$4.85@4.85% for sixty days; posted rates, \$4.86 and \$4.88½; commercial bills, \$4.84½@4.85. Clear-cent. speculators, and they sold the stock freely. The preferred suffered even more markedly, declining 3% from the top level. The common fell 1% from the best. Both stocks seemed to be without aggressive support. The effort of belated borrowers to secure loans to carry over the four-day interval BOSTON.—Clearings, \$29,991,038; balances, \$2, until Monday caused a lively flurry in money. As high as 28 per cent. was paid for call loans and considerable liquidation was precipitated. The last hour was the most active of the day on the closing up of accounts, and a number of leading stocks were carried down a point or more. \$704,156. The disturbance in the money market was evidence of the delay in the return to the market of the money paid out in dividends | 374,100 and interest. In spite of payment of government interest, the subtreasury has taken a small sum from the market on balance this week. The sharp discount to which Chicago exchange has fallen is also evidence of the presence in that market of heavy claims on New York. The bond market was dull and irregular. Total sales at par value were \$1,785,000. United States bonds were all unchanged on checks. Spanish fours, 72.57%.

There was a general hope and expectation among professional operators in stocks last week that there would be some revival of speculation this week, which has been totally disappointing. It is not unlikely that quite favorable developments have proved inadequate to overthe repressive influence on stock operations, as on every other form of human activity, for the terrible heat of weather. Business at the exchange was of such small proportions that the price changes offer little significance. It is no un-usual thing for money to continue tight after the passing of a half-yearly dividend period owing to the delay in distribu-tion of resources accumulated in loans to the channels of the money market again, but operators for the rise this year had to face in addition the discouragingly small demand from investment sources in anticipation of dividend disbursements. It is not customary for prospective recipients of profits to await actual money in hand to teinvest when there is a rising market before them. This year the anticipatory investment demand was conspicuously absent. There has been an undertone of uneasiness also as an outgrowth of the discussion and criticism of the affairs of the Seventh National Bank and Marquand & Co., whose failures were of very moderate effect on the market last week. The surface of affairs, while quiet, has reflected that a process was going on of the overhauling of collateral in loans, and the operation of credits lacked the perfect smoothness and facility which have characterized the money market since the recuperation was fairly established after the May panic. Certification of checks for the large amounts employed by Stock Exchange houses have been less ready. Conjecture bank loans in general was stimulated by this condition and also by the closing of two banks in Buffalo, not in themselves | September corn closed %c lower. of importance. In the public discussion which has been going on the argument has been frankly advanced that some of the methods of the failed bank which have been most criticised and which are admittedly in contravention of the statutes are really essential to the conduct of business in the Wall-street district and are entirely in common practice among New

York city banks. There has been, as usual, a bear contingent of professional operators ready to make use of all available means to work reaction. They have had on their side the currency of reports in London reflecting on the security of New York bank loans. The feeling thus engendered has had the effect of repressing rather than depressing speculation.

Certain local shorts who were evening up over the Fourth. Continued favorable accounts of the winter wheat harvest were the chief hindrances to any pronounced bullishness. September opened a shade to speculation.

It is probable that half a ozen houses have transacted the bulk of the ousiness done and they have succeeded in mo ng some large lines of wool, including Territories, Texas and California wools, pulled and scoured, as well as fine unwashed and unmerchantable fleeces. Some speculation has been in progress among the dealers, especially on scoured wools, but they have not as yet bough a very great amount. Both the large and the small mills have been represented in the mar-The sales for the week in Boston amoun to 5,935,000 pounds domestic and 260,000 poun foreign, making a total of 6,195,000 pounds, against a total of 3,375,000 pounds for the previous week, and a total of 1,273,500 pounds for the corresponding week last year. The sales since Jan. 1 amounted to 110,969,900 pounds, since Jan. 1 amounted to 119,969,300 pounds, against 68,056,600 pounds for the corresponding time last year. UNION STOCKYARDS, INDIANAPOLIS to firm all day on export rumors and light of- July 3 .- Cattle-Receipts, 600; shipments small. Thus far this week the receipts of time a year ago. The receipts to-day were visions; closed easy and partly 1/3c net lower: 250 smaller than a week ago, but as large July closed at 481/4c; September, 50@501/4c, closed as expected, considering the condition of the market. There was no visible improvement in the demand over yesterday, and the market opened with buyers backward Lard easy; Western steamed, \$8.80. Refined and bidding lower prices generally. The casy; continent, \$9; S. A., \$9.65; compound, \$7. Pork easy; family, \$15.50@16; short clear, \$15.75@ desire for lower prices, however, was not the worst feature of the market. Orders were apparently unimportant, and it did not take long to supply the demand, after which it was very difficult to get any kind of a bid. Business is very unsatisfactory to salesmen and there seems to be no immediate relief in sight, but it is possible that very moderate receipts will be of some help. All grades of cattle are suffering, Quotations at St. Louis, Baltimore, but stockers and feeders seem to be the most neglected, and a good many are hav-ing to be carried over in first hands. Quo-

Good to choice cows and calves ... 40.00@50.00 Common to medium cows and Hogs-Receipts, 5,500; shipments, 1,000. The marketing of hogs thus far this week shows an increase of over 1,000, compared with the same time last week, and over 7,000, compared with the corresponding time a year ago. The receipts to-day were a little larger than a week ago and proved to be fully equal to the demand. Because of a comparatively high market here yesterday and in sympathy with liberal receipts and lower prices elsewhere to-day the market opened with the bidding decidedly lower and the demand was not urgent. Shipping orders were scattering, which caused pack-ers to be more independent and it was soon evident that prices would have to be sharply reduced to make a clearance. Consegenerally 10c decline, compared with yesterday's average, but there were a few transactions probably not to exceed 71/2c lower. At the decline packers were liberal buyers and a good clearance was made. Sales ranged from \$5.80@6.10 and were large-

Sheep-Receipts, 750; shipments, 600. The marketing of sheep thus far this week shows a decrease of 1,100, as compared with the same time last week, and an increase of nearly 800, compared with the corresponding time a year ago. The receipts to-day were about 500 smaller than a week ago. The supply was evidently large enough to meet the requirements of buyers and they took advantage of the opportunity to break prices. Under the pressure lambs suffered a decline of about 25c and sheep, especially heavier grades, were 10@25c lower than at the close of last week. Although not satisfied, salesmen accepted the inevitable and a good clearance was made in good season at the decline. All buyers were in the market, but shippers took a very large proportion of the supply. A few lambs sold as high as \$5, but \$4.90 was practically the top and other sales ranged from \$404.75. Choice yearlings sold as high as \$3.75, and other sales were reported at \$3.50. Feeding sheep sold as high as \$3.25, but \$3 was practically the top for fat stock, and ordinary grades sold as low as \$2.50. Bucks were reported at \$2@2.50. Quotations:

COMMISSION MERCHANTS HAD A BIG ANTE-HOLIDAY TRADE.

Groceries Also Moved Well, but Other Lines Were Dull-Grain Market Continues Disappointing.

On Commission row yesterday was quite a busy day, as is usually the case before a holiday. Lemons are good property, advancing in prices almost daily, being advanced yesterday 50 cents a box all along the line. Oranges are selling well at steady prices, with supply light. While California fruits are not in large supply the market quently, a trading basis was established at | rules steady. With increasing receipts new potatoes are declining in price. Tomatoes continue firm at too high prices to make an active market. Cabbage is firm and meeting with a fair sale.
